## 1) POLICY DOCUMENT ON ENVIRONMENT AND ENERGY USAGE

The main objective behind the Environment and Energy usage Policy of Institute is to manage energy in such a systematic way so as to minimize its impact on the environment. This environment and energy policy is binding for all the components of the institution and applies to all its stakeholders and to the various activities undertaken by the institution. The policy implies to explore the renewable energy resources to reduce the burden of the government and to find out substitute natural resources as solutions to the energy crisis. It will help us to embed efficiency and environmental awareness into our everyday activities, thus helping us to realize our responsibilities and commitment to conservation of natural resources and to limit its usage. The N.S.S of college devoted to the cause of environmental awareness, to undertake green initiatives, and to conduct green literacy programmes to save energy and to protect the environment.

### **Policies:**

1. To assess our energy usage and measure its impact on the environment.
2. To reduce local air pollution emissions using environment-friendly vehicles, including bicycles, public transportation and use of pedestrian-friendly roads.
3. To install photovoltaic solar panels for the generation of alternate energy.
4. To install LED bulbs in the complete campus to save energy.
5. To develop systematic waste management mechanism.
6. To develop rain water harvesting unit.
7. To undertake tree plantation drive.
8. To take additional measures to continuously improve our energy consumption.
9. To ensure the availability of necessary resources to achieve our objectives.
10. To offer opportunities for employees and students to engage in initiatives those contribute to environmental protection.
11. To train our employees and students through our N.S.S and Campus beautification committee to make them 'Go Green Specialists' and partners to plant trees each year.

## 1. Conservation Germplasm (Seed Bank) :

Department of botany conduct project in Month December 2019 was a valuable initiative to foster entrepreneurship development and environmental protection. The workshop aimed to instil entrepreneurial values among the students while promoting sustainable practices by demonstrating the seed processing such as Collection, Selection, Drying, Sterilization, Labeling, Storing etc. Conservation of germplasm is a Practice through we can conserve our Desi variety of Crop Seed and make it available to the farmer so it help them to reduce their spending over Seed purchasing. Through this activity students were involve in conservation practice. All faculty member of department of Botany might have inspired students to think creatively and consider as a viable career option.

## 2.College Campus Cleaning (Swachhta Abhiyan):

College campus cleaning is an essential aspect of maintaining a clean, safe, and appealing environment for students, staff, and visitors. A clean campus promotes a positive atmosphere for learning, socializing, and overall well-being. College has conducted a campus cleaning program where NSS volunteers have participated in the program. Campus cleaning programs not only help maintain the physical appearance of the college grounds but also instill a sense of responsibility and community involvement among students.

Swachhta Abhiyan 150th Jayanti Mahatma Gandhi, dated on 15/10/2019. The aim of this activity is to educate the people and empower them. With this motto, the NSS UNIT of DDBASC, Mouda comprising of about 260 students has participated in Swachhta Abhiyan 150th Jayanti Mahatma Gandhi.

To commemorate Constitution Day, dated on 26-11-2021 the NSS unit organised a Swachhta Abhiyan in the college campus and surrounding areas. Recognizing the pivotal role cleanliness plays in fostering healthy living, volunteers from the NSS Unit wholeheartedly engaged in this initiative. Dr. A.M. Thkare, the NSS Program Officer, underscored the significance of cleanliness in both personal life and within the college campus.

### 3. Environmental awareness Program:

#### Face painting Competition 2021: Date 06/10/2021

Department of Zoology and Department of Botany had jointly organized Face Painting Competition on Wednesday, 6<sup>th</sup> October 2021 on First floor of College campus which was start at 11.00 pm. The President for competition was Hon'ble Dr. S. V. Khudale, Principal, D. D. Bhoayar College of Arts & Science, Mouda and also, he was judge of competition. A total of 47 students from various departments registered for the competition. Participants were given 2 hours to complete their face painting. Welcome address delivered by Mr. N. B. Shiwankar, Assitant Professor, Department of Botany, who highlighted the importance of creativity and the arts in personal development. The President Hon'ble Dr. S. V. Khudales sir who praised the participant's efforts and encouraged them to continue pursuing their artistic passions. Then, the program was concluded by Vote of Thanks by Mr. V. R. Zade, Assistant Professor & Head, Department of Zoology.

### 4. Tree Plantation:

International Youth Day has been celebrated on 12/08/2022. The students and the staff members including teaching and non-teaching actively participated in International Youth Day Celebration. On occasion of International Youth Day, all the faculty members including teaching and nonteaching, students actively participated in the tree plantation program. The activity has been conducted under the supervision of NSS program officer and Principal.

D. D. Bhoayar College of Arts and Science, Mouda. Tahsil Office, Mouda & Police Station Mouda. On 10/08/2022 on occasion of Azadi ka Amrit Mahotsav – Collaboratively Organized Tree Plantation Programme. In this program plantation was done through the hand of Secretary of Ujjwal-Bahu-udeshiy Sanstha, Nagpur Dr. Satish Bhoayar Sir, Shri. Kharabe Sir, PSI, Shri. Virani Sir, Tahsildar. Program conducted by Dr. A. M. Thackeray and vote of thanks done by Anil Wasnik.

## Green Campus Initiatives

The Green Campus program enables the college to conserve natural resources like water and biodiversity, optimize energy efficiency, manage waste and educate about climate change and sustainability while addressing well-being of the students as compared to conventional educational institutes.

### Following are some initiatives taken for greening campus:

#### 1. Restricted entry of automobiles:

Automobiles entry is restricted in the college campus to reduce the air pollution as well as noise pollution.

##### 1.1 Use public Transport/ bicycles/battery powered vehicles:

As the college is situated in rural area, most of the students/ staff, uses local transport to travel. Also students are advised to use battery powered vehicles.

##### 1.2 Pedestrian friendly pathways:

In the college premises, pedestrian friendly pathways are constructed very well. And regular maintenance of these pathways is done. It keeps the roads clean and

free from mud or any other vegetation growth.

### 1.3 Ban on use of plastic:

Our college use to avoid plastic to keep the campus plastic free. Boards the campusas plastic free has been pasted all over the campus.

### 1.4 Landscaping with trees and plants:

The college campus is landscaped with trees and plants. Proper maintenance is donetime to time.

## 1. Executive Summary

The acceleration of urbanization and economic development at local, regional, and global levels has resulted in significant environmental and ecological challenges. In response, adopting a Green Campus system is crucial for promoting sustainable development. D.D. Bhojar College of Art & Science, Mouda, located in Nagpur, Maharashtra, is acutely aware of the urgent need to address these critical issues and reverse harmful trends. As a leading higher education institution, the college has launched 'The Green Campus' initiative, which actively supports various environmental protection and sustainability projects. The purpose of this audit is to ensure that campus practices align with the institution's Green Policy. The audit methodology includes physical campus inspections, document reviews, interviews with key personnel, data analysis, measurements, and recommendations. The Green Campus initiative focuses on several key areas, including water conservation, tree plantation, waste management, paperless work, and alternative energy. The audit's specific objectives are to evaluate the effectiveness of the management control framework for environmental sustainability and to assess departmental compliance with relevant regulations, policies, and standards. Implementing these initiatives can significantly benefit student health and learning, reduce college operational costs, and positively impact the environment. The criteria, methods, and recommendations used in the audit are based on identified risks.

### 1.1 Introduction

A Green Audit is a systematic process involving the identification, quantification, recording, reporting, and analysis of environmental diversity components. The primary goal of the Green Audit is to assess environmental practices within and outside the college campus, thereby influencing the eco-friendly atmosphere. This initiative aims to scrutinize the activities carried out by organizations that may pose risks to both the health of inhabitants and the environment. Conducting a Green Audit provides valuable insights and guidance on improving environmental conditions.

Several factors have contributed to the growth and importance of Green Audits. Notably, Green Audits are linked to Criterion 7 of the National Assessment and Accreditation Council (NAAC), an autonomous organization in India. NAAC evaluates and accredits institutions, assigning grades such as A++, A+, A, B++, B+, B, or C based on their performance during the accreditation process.

## 1.2 About the College

D. D. Bhoyar college of Arts and Science Mouda, is run by Ujjwal Bahu-Uddeshiya Sanstha Nagpur, College is Government of Maharashtra recognised, affiliated to Rashtrasant Tukdoji Maharaj Nagpur university, Nagpur and approved under section 2(f) of university grant commission New Delhi.

Ujjwal Bahu-Uddeshiya sanstha, Nagpur is presided by Shree Rameshji Bhoyar and the secretary is Dr. Satishji Bhoyar. Sanstha has been established with the motto of promoting and making available higher education opportunities to the young talent of rural area.

D. D. Bhoyar College of Arts and Science, is established in Mouda and making steady progress under the leadership of Principal Dr. S. V. Khudale. Since its establishment in 2010 it has rendered quality services to the cause of Arts and Science Education. College is offering the degree courses in Bachelor Arts (BA) and Bachelor of Science (B.Sc.) and the institute is committed to contribute excellence in education, to serve as valuable resource for society, professional industries and research organization.

College has well developed campus with newly build college building which flaunts its unique architecture along with well-equipped laboratories and has all the facilities including Library, Seminar hall, Computer Lab, Indoor sports facility, Language lab, Competitive and remedial coaching centre, Canteen, Botanical garden etc. Apart from these facilities College is always a front runner in organizing co-curricular and extracurricular activities in the college. National Service scheme (NSS) is one of the most vibrant and active section Of the College organizing various activities of social and educational importance all along the year.

Teaching faculties in the college are highly experienced and duly qualified they take keen interest in interactive teaching and empowering Students with soft skill, values, moral education. Teaching faculties also invest their time in counselling students individually through mentor-mentee scheme to address their difficulties. Non-teaching staff is very student friendly and tech-savvy.

Within few years of span College is moving towards achieving academic excellence. In future college is planning to introduce new courses and making available all the urban educational amenities to our students of rural area. At the end we invite and welcome you all to be a part of D. D. Bhoyar College of Arts and Science, Mouda.

## VISION OF COLLEGE

“To provide excellent educational opportunities that are responsive to the needs of our students, empower them to meet and exceed challenges as active participants in shaping the future of our Country and transforming lives and communities through learning in rural area.”

## MISSION OF COLLEGE

- To enhance access to Higher Education, ensuring equity, and in particular to the vulnerable sections of the society
- To promote quality of Higher Education
- To focus upon improving employability of students after graduation
- To develop the vocational and skill education
- To deepen and extend knowledge about the formation and utilization of human capabilities.
- To offer a dynamic, interactive education environment that engages students in the learning process
- To Provide students with an environment which will lead them to become good human being.
- To Provide clear learning outcomes, detailed instruction, and assessment for all courses to ensure course mastery and student success
- To use technology to create effective modes and means of instruction that expand access to learning

## 2. Objectives of the Study

The primary goal of the Green Audit is to advance Environmental Management and Conservation within the College Campus. The audit aims to identify, quantify, describe, and prioritize a framework for Environmental Sustainability in compliance with relevant regulations, policies, and standards. The main objectives of conducting a Green Audit are:

**Saving Power:** This encompasses energy conservation, where authorities identify methods to save electricity, natural gas, and other forms of power that are inefficiently used or wasted within the organization. Recommendations are made for more efficient electric heating, cooling, and other energy-saving measures.

**Saving Water:** This involves educating staff on ways to save and reuse precious water resources both inside and outside the premises. The primary focus is on reducing water consumption.

**Greening the Workplace:** This is achieved by creating a more environmentally friendly office space. This involves the use of alternative power sources such as solar energy, reducing biological contaminants like pesticides, implementing green landscaping options, and rainwater harvesting.

**Driving Green:** Vehicle use is one of the largest contributors to both energy consumption and environmental pollution. Employees should be trained to make more fuel-efficient driving choices, optimize fuel consumption, and consider alternative fuel vehicles. Additionally, exploring possibilities for using public transport or carpooling can help reduce gas emissions. Periodic emission tests should be conducted to ensure efficient fuel use.

### 3. Methodology

In order to perform green audit, the methodology included different tools such as physical inspection of the campus, observation and review of the documentation, interviewing key persons and data analysis, measurements and recommendations. The study covered the following areas to summarize the present status of environment management in the campus:

- ❖ Water management
- ❖ Energy conservation
- ❖ Waste management
- ❖ E-waste management
- ❖ Green area management

## 4. Observations and Recommendations

### 4.1 Water Use

This indicator addresses water consumption, water sources, irrigation, stormwater, appliances, and fixtures. A water audit involves an on-site survey and assessment to determine water usage and improve its efficiency.

#### Observations

The study found that groundwater, borewells, and rainwater are the primary water sources. Water for drinking purposes is treated using an RO system, with one RO water cooler having a capacity of 300 liters per hour. Water is also used for gardening. During the survey, no water loss was observed, either through leakages or overflow from overhead tanks. The data collected from all departments was examined and verified. On average, the total water usage for 7 hours at the college is 6,000 liters per day, which includes 3,000 liters per day for domestic purposes, 2,000 liters per day for gardening, and 1,000 liters per day for other uses.

## Test Report

Sr. No.	Parameters	Results	Acceptable Limit as per IS 10500: 2012	Units
1.	Color	1	Max. 5	Hazen Units
2.	Odour	Agreeable	Agreeable	-
3.	pH	7.10	6.5-8.5	-
4.	Turbidity	0.7	Max. 1	N.T.U.
5.	Total Dissolved Solids	120	Max. 500	mg/L
6.	Calcium (as Ca)	8	Max. 75	mg/L
7.	Chloride (as Cl)	9.0	Max. 250	mg/L
8.	Fluoride (as F)	<0.06	Max. 1	mg/L
9.	Iron (as Fe)	<0.08	Max. 0.3	mg/L
10.	Magnesium (as Mg)	4.8	Max. 30	mg/L
11.	Nitrate (as NO <sub>3</sub> )	5.02	Max. 45	mg/L
12.	Sulphate (as SO <sub>4</sub> )	13.01	Max. 200	mg/L
13.	Alkalinity (as CaCO <sub>3</sub> )	38	Max. 200	mg/L
14.	Total Hardness (as CaCO <sub>3</sub> )	49	Max. 200	mg/L
15.	<i>E.coli</i>	Absent	Not Detectable	/100 ml

## Recommendations

- ❖ **Minimize water and electricity waste:** Reduce the wastage of water and electricity during water filtration processes, such as RO filtration. Ensure that the equipment used for these processes is regularly maintained and that water wastage is not above the industry average for similar equipment.
- ❖ **Use eco-friendly cleaning products:** Ensure that all cleaning products used by college staff have minimal negative environmental impacts, i.e., they should be biodegradable and non-toxic, even if this surpasses the Control of Substances Hazardous to Health (COSHH) regulations.
- ❖ **Enhance rainwater harvesting:** The college should take measures to improve rainwater harvesting. Separate buildings currently lack rainwater harvesting systems. The quantity of water collected from rainwater harvesting should be measured.
- ❖ **Monitor and control overflow:** Regular monitoring and control of water overflow are essential. Periodic supervision drills should be organized. Implement small, medium, or large-scale water reuse and recycling systems on campus

## 4.2 Energy Use and Conservation

This indicator addresses energy consumption, energy sources, energy monitoring, lighting, appliance, natural gas and vehicles. Energy use is clearly an important aspect of campus sustainability and thus requires no explanation for its inclusion in the assessment.

### Observations

Energy source utilized by all the departments and common facility center is electricity only. Total energy consumption during year 2022-23 is determined as around 8306 KW by major energy consuming equipment. All the departments and common facility centers are equipped with LED lamps energy saving appliances Approximately 122 Fan,97+ plus LED, 37 CCTV,33 PC,06 LED Focus Light,01 Solar Led Lamp ,03 Projecter,3 RO Fitted Water Cooler were counted during survey. Besides this, recently Solar Lights were installed in the Campus as an alternate renewable source of energy. Equipment like Computers is used with power saving mode. Also, campus administration runs switch-off drill on regular basis. In all departments electricity was shut down after occupancy time as one of the practices for energy conservation. Beside it one electricity Control Room is also there.

### Recommendations

- ❖ This includes evaluation of procurement practices with ISO 50001. This does not exactly mean that you need to buy the most efficient, but you need to buy the most efficient which is financially viable.
- ❖ Give preference to the most energy efficient and environmentally sound appliances available, this includes only using energy-saving light bulbs
- ❖ Monitor and understand the importance of different sources of college energy consumption, and set appropriate and measurable targets for a reduction certain areas of consumption and/or in the overall consumption of energy.
- ❖ Ensures that all electronic and electrical equipment's, such as computers, are switched off when not in use.
- ❖ Centralized controls of lighting, auditorium etc. to avoid any miss-use of electricity
- ❖ Installation of LED lamps instead of CFL.
- ❖ Installation of Solar panels, Power Purchase Agreements with Solar Power Plant Owners to buy environmentally friendly energy Source etc.
- ❖ Shift to paperless regime wherever not required, example attendance muster replaced by biometrics, DG logbook replaced by computerized logbook, daily reports converted from paper to paper less, HOD meetings converted to paperless formats, and all such examples.

- ❖ Appreciate that it is preferable to purchase electricity from a company that invests in new sources of renewable and carbon-neutral electricity.
- ❖ If there are equipment's running on standby mode, reduce the energy consumption on standby mode or minimize the running of equipment's on standby mode.

## 4.3 Waste Generation

This indicator addresses waste production and disposal of different wastes like paper, food, plastic, biodegradable, construction, glass, dust etc. and recycling. Furthermore, solid waste often includes wasted material resources that could otherwise be channeled into better service through recycling, repair and reuse. Solid waste generation and management is a burning issue. Unscientific handling of solid waste can create threats to everyone. The survey focused on volume, type and current management practice of solid waste generated in the campus. The different solid wastes collected as mentioned above.

### Observations

The total solid waste collected in the campus is 10 kg/day. Waste generated from tree droppings is a major solid waste in the campus. The waste is segregated at source by providing separate dustbins for Bio-degradable and Non Bio-degradable waste. Segregation of solid waste generated in all areas is also practiced. Single sided used papers reused for writing and printing in all departments. Important and confidential reports/ papers are sent for recycling after completion of their preservation period to Scrap Agent. Metal waste and wooden waste is stored and given to authorized Scrap agents for further processing. The institute has adopted Composting Method. The main purpose of this is to reduce disposable waste in the college campus. After complete process of composting, it is used as manure in the garden and lawns.

### Recommendations

- ❖ Reduce the absolute amount of waste that produces from college staff offices.
- ❖ Make full use of all recycling facilities provided by Nagar panchayat and private suppliers, including glass, cans, white coloured and brown paper, plastic bottles, batteries, print cartridges, cardboard and furniture.
- ❖ Provide sufficient, accessible and well-publicized collection points for recyclable waste with responsibility for recycling clearly allocated.

- ❖ Single sided papers to be used for writing and photocopy ☞ Important and confidential papers after their validity to be sent for pulping.

## 4.4 E-Waste Generation

E-waste can be described as consumer and business electronic equipment that is near or at the end of its useful life. This makes up about 5% of all municipal solid waste worldwide but is much more hazardous than other waste because electronic Components contain cadmium, lead, mercury and Polychlorinated biphenyls (PCBs) that can damage human health and the environment.

### Observations

The E-waste generally includes the tube lights, CFL, LED are stored into the scrap yard of college and stored. This waste material is yet to be disposed. E-waste generated in the campus is very less in quantity. The college has total of 40 computers and 5 printers in working condition. The cartridges of laser printers are refilled outside the college campus. Administration conducts the awareness programmes regarding E-waste Management with the help of various departments. The E- waste and defective item from computer laboratory is being stored properly. The institution has decided to contact approved E-waste management and disposal facility in order to dispose E-waste in scientific manner. The audit team noted that the technical life time / service life of most of the electronic equipment's is yet to be over, thus the presently there is limited generation of waste. However, college needs to device long term and regularized policy of the e -waste disposal.

### Recommendations

- ❖ Use reusable resources and containers and avoid unnecessary packaging where possible.
- ❖ Recycle or safely dispose of white goods, computers and electrical appliances
- ❖ Always purchase recycled resources where these are both suitable and available.

## 4.5 Green Area

This includes the plants, greenery and sustainability of the campus to ensure that the buildings conform to green standards. This also helps in ensuring that the Environmental Policy is enacted, enforced and reviewed using various environmental awareness programmes.

## Observations

To create- green cover, eco-friendly atmosphere, pure oxygen at the college campus, plantation program is organized every year with involving all students, principal and all departments faculty members. Campus is located in the vicinity of approximately numerous types floral species belongs to herb, shrub and trees. Total Approx. 50 trees are available in the college campus. Various tree plantation programs are being organized during the month of July and August at college campus and surrounding villages through NSS unit. This program helps in encouraging eco-friendly environment which provides pure oxygen within the institute and awareness among villagers. The plantation program includes plantation of various type of indigenous species of ornamental and medicinal as well as wild plant species. Under the biodiversity and ecological survey. Rain water harvesting plant is well maintained. College also maintained guava and pomegranate garden in premises.

## Plantation of diversified species:

- To create-green cover, eco-friendly atmosphere, pure oxygen at the college campus, plantation program is organized every year with involving all students, principal, and all departments faculty members.
- In this session Tree plantation day program was organized were ornamental, avenue, medicinal plant with rare and exotic beautiful trees was planted in college campus.
- To keep the greeneries in the campus, we regularly maintain the gardens which are looked by staff under the guidance of garden committee members.
- Moreover, every year we try to plant new trees. Seasonal flower garden is also a unique feature of this college.

## Recommendations

- ❖ Review periodically the list of trees planted in the garden, allot numbers to the trees and keep records. Give scientific names to the trees.
- ❖ Promote environmental awareness as a part of course work in various curricular areas, independent research projects and community service.
- ❖ Create awareness of environmental sustainability and take actions to ensure environmental sustainability.
- ❖ Establish a College Environmental Committee that will hold responsibility for the enactment, enforcement and review of the Environmental Policy. The Environmental Committee shall be the source of advice and guidance to staff and students on how to implement this Policy.
- ❖ Ensure that an audit is conducted annually and action is taken on the basis of audit report, recommendation and findings.
- ❖ Celebrate every year 'Environment Day' and plant trees on this day to make the campus more Green.

## 4 5. Acknowledgement

We are grateful to the committee members of D.D.Bhojar College of Arts & Science, Mouda to award this prestigious project and allowed us to enter the new era of Green Audit in the College Campus. Further we sincerely thank the college staff for providing us necessary facilities and co-operation during the audit. This helped us in making the audit, a success. Further we hope, this will boost the new generation to take care of Environment and propagate these views for many generations to come.

Assistant Professor

**GREEN AUDIT REPORT**

Date: 27/12/2022

**D.D.Bhojar Arts and Science College, Mouda****Conclusion and Summary of Findings**

1. The College has Rainwater harvesting system which is efficient and sufficient.
2. The College has waste disposal agreement with local vendor E- Waste is disposed off systematically and in timely a manner.
3. College has provided wet waste, dry waste and semi dry waste bins for segregation and collection of solid waste. This has been done in entire campus in open space and inside the buildings. The system is working efficiently.
4. College is using Solar Street Light System which is in working condition.
5. The College has created great awareness among the students and staff about the green practices.
6. The College is well landscaped and the green cover is reasonably good and they are found to be increasing the green cover on a continuous basis.
7. Botanical Garden has constructed to maintain biodiversity in campus includes variety of medicinal plants, Hydrophytes,
8. The College canteen waste is composted and used as manure for the green cover of the campus.
9. The College has vermicomposting unit wherein entire bio-degradable waste is converted into compost manure and is used for organic farming of fruits and vegetables in the campus.
10. The water quality in the campus is tested and found portable.
11. The College has provided RO treated water for drinking to every students
12. Noise level in Classrooms and labs is found less than 50 db which is within the safe limits as per Noise Pollution Control rules, 2000.
13. All results of Illumination studies (Classrooms and labs) found within limit as per Factory rules Section 35 Schedule b.
14. Ventilation found Excellent.

## 1. Executive Summary

The acceleration of urbanization and economic development at local, regional, and global levels has resulted in significant environmental and ecological challenges. In response, adopting a Green Campus system is crucial for promoting sustainable development. D.D. Bhojar College of Art & Science, Mouda, located in Nagpur, Maharashtra, is acutely aware of the urgent need to address these critical issues and reverse harmful trends. As a leading higher education institution, the college has launched 'The Green Campus' initiative, which actively supports various environmental protection and sustainability projects. The purpose of this audit is to ensure that campus practices align with the institution's Green Policy. The audit methodology includes physical campus inspections, document reviews, interviews with key personnel, data analysis, measurements, and recommendations. The Green Campus initiative focuses on several key areas, including water conservation, tree plantation, waste management, paperless work, and alternative energy. The audit's specific objectives are to evaluate the effectiveness of the management control framework for environmental sustainability and to assess departmental compliance with relevant regulations, policies, and standards. Implementing these initiatives can significantly benefit student health and learning, reduce college operational costs, and positively impact the environment. The criteria, methods, and recommendations used in the audit are based on identified risks.

### 1.1 Introduction

A Green Audit is a systematic process involving the identification, quantification, recording, reporting, and analysis of environmental diversity components. The primary goal of the Green Audit is to assess environmental practices within and outside the college campus, thereby influencing the eco-friendly atmosphere. This initiative aims to scrutinize the activities carried out by organizations that may pose risks to both the health of inhabitants and the environment. Conducting a Green Audit provides valuable insights and guidance on improving environmental conditions.

Several factors have contributed to the growth and importance of Green Audits. Notably, Green Audits are linked to Criterion 7 of the National Assessment and Accreditation Council (NAAC), an autonomous organization in India. NAAC evaluates and accredits institutions, assigning grades such as A++, A+, A, B++, B+, B, or C based on their performance during the accreditation process.

- To focus upon improving employability of students after graduation
- To develop the vocational and skill education
- To deepen and extend knowledge about the formation and utilization of human capabilities.
- To offer a dynamic, interactive education environment that engages students in the learning process
- To Provide students with an environment which will lead them to become good human being.
- To Provide clear learning outcomes, detailed instruction, and assessment for all courses to ensure course mastery and student success
- To use technology to create effective modes and means of instruction that expand access to learning

## 2. Objectives of the Study

The primary goal of the Green Audit is to advance Environmental Management and Conservation within the College Campus. The audit aims to identify, quantify, describe, and prioritize a framework for Environmental Sustainability in compliance with relevant regulations, policies, and standards. The main objectives of conducting a Green Audit are:

**Saving Power:** This encompasses energy conservation, where authorities identify methods to save electricity, natural gas, and other forms of power that are inefficiently used or wasted within the organization. Recommendations are made for more efficient electric heating, cooling, and other energy-saving measures.

**Saving Water:** This involves educating staff on ways to save and reuse precious water resources both inside and outside the premises. The primary focus is on reducing water consumption.

**Greening the Workplace:** This is achieved by creating a more environmentally friendly office space. This involves the use of alternative power sources such as solar energy, reducing biological contaminants like pesticides, implementing green landscaping options, and rainwater harvesting.

**Driving Green:** Vehicle use is one of the largest contributors to both energy consumption and environmental pollution. Employees should be trained to make more fuel-efficient driving choices, optimize fuel consumption, and consider alternative fuel vehicles. Additionally, exploring possibilities for using public transport or carpooling can help reduce gas emissions. Periodic emission tests should be conducted to ensure efficient fuel use.

### 3. Methodology

In order to perform green audit, the methodology included different tools such as physical inspection of the campus, observation and review of the documentation, interviewing key persons and data analysis, measurements and recommendations. The study covered the following areas to summarize the present status of environment management in the campus:

- ❖ Water management
- ❖ Energy conservation
- ❖ E-waste management

## 4. Observations and Recommendations

### 4.1 Water Use

This indicator addresses power consumption, water sources, irrigation, storm water, appliances, and fixtures. An energy audit involves an on-site survey and assessment to determine water usage and improve its efficiency.

### Observations

The study found that groundwater, bore wells and rainwater are the primary water sources. Water for drinking purposes is treated using an RO system, with one RO water cooler having a capacity of 300 liters per hour. Water is also used for gardening. During the survey, no any extra power consumption were found, every classroom, laboratories, Offices and College premises all power appliances were properly switch off ,the energy saving signage board were displayed everywhere. The data collected from all departments was examined and verified. On average, the total water usage for 7 hours at the college is 6,000 liters per day, which includes 3,000 liters per day for domestic purposes, 2,000 liters per day for gardening, and 1,000 liters per day for other uses.

### Recommendations

- ❖ **Minimize water and electricity waste:** Reduce the wastage of water and electricity during water filtration processes, such as RO filtration. Ensure that the equipment used for these processes is regularly maintained and that water wastage is not above the industry average for similar equipment.
- ❖ **Use eco-friendly cleaning products:** Ensure that all cleaning products used by college staff have minimal negative environmental impacts, i.e., they should be biodegradable and non-toxic, even if this surpasses the Control of Substances Hazardous to Health (COSHH) regulations.
- ❖ **Enhance rainwater harvesting:** The college should take measures to improve rainwater harvesting. Separate buildings currently lack rainwater harvesting systems. The quantity of water collected from rainwater harvesting should be measured.
- ❖ **Monitor and control overflow:** Regular monitoring and control of water overflow are essential. Periodic supervision drills should be organized. Implement small, medium, or large-scale water reuse and recycling systems on campus

## 4.2 Energy Use and Conservation

This indicator addresses energy consumption, energy sources, energy monitoring, lighting, appliance, natural gas and vehicles. Energy use is clearly an important aspect of campus sustainability and thus requires no explanation for its inclusion in the assessment.

### Observations

Energy source utilized by all the departments and common facility center is electricity only. Total energy consumption during year 2022-23 is determined as around 8306 KW by major energy consuming equipment. All the departments and common facility centers are equipped with LED lamps energy saving appliances Approximately 122 Fan,97+ plus LED, 37 CCTV,33 PC,06 LED Focus Light,01 Solar Led Lamp ,03 Projecter,3 RO Fitted Water Cooler were counted during survey. Besides this, recently Solar Lights were installed in the Campus as an alternate renewable source of energy. Equipment like Computers is used with power saving mode. Also, campus administration runs switch-off drill on regular basis. In all departments electricity was shut down after occupancy time as one of the practices for energy conservation. Beside it one electricity Control Room is also there.

## 4.4 E-Waste Generation

E-waste can be described as consumer and business electronic equipment that is near or at the end of its useful life. This makes up about 5% of all municipal solid waste worldwide but is much more hazardous than other waste because electronic Components contain cadmium, lead, mercury and Polychlorinated biphenyls (PCBs) that can damage human health and the environment.

## Observations

The E-waste generally includes the tube lights, CFL, LED are stored into the scrap yard of college and stored. This waste material is yet to be disposed. E-waste generated in the campus is very less in quantity. The college has total of 33 computers and 5 printers in working condition. The cartridges of laser printers are refilled outside the college campus. Administration conducts the awareness programmes regarding E-waste Management with the help of various departments. The E- waste and

defective item from computer laboratory is being stored properly. The institution has decided to contact approved E-waste management and disposal facility in order to dispose E-waste in scientific manner. The audit team noted that the technical life time / service life of most of the electronic equipment's is yet to be over, thus the presently there is limited generation of waste. However, college needs to device long term and regularized policy of the e -waste disposal.

### Recommendations

- ❖ Use reusable resources and containers and avoid unnecessary packaging where possible.
- ❖ Recycle or safely dispose of white goods, computers and electrical appliances
- ❖ Always purchase recycled resources where these are both suitable and available.

### 5. Data Analysis:

The Energy Consumption survey for Academic year 2022-2023 were verified through the electricity bills from Jan 2022 up to April 2023 as shown in table.

	Unit (KW)
January 2022	453
February 2022	360
March 2022	309
April 2022	385
May 2022	780
June 2022	13
July 2022	343
August 2022	447
September 2022	1225
October 2022	782
November 2022	606
December 2022	516
January 2023	458

<b>February 2023</b>	<b>380</b>
<b>March 2023</b>	<b>727</b>
<b>April 2023</b>	<b>522</b>
<b>Total Consumption</b>	<b>8306 KW</b>

### Observation:

During the surveyed this was observed that in year 2022-2023 the total energy consumption were 8306 KW. Which was found minimum as HEI.

### Result:

In Present Energy Audit Survey good management of ventilation and natural Sunlight System were results into minimizing total consumption of Energy.

### Recommendations

Increase number of the Solar light and aligned appliances.

## 7. ENERGY AUDIT REPORT

D.D.Bhojar Arts and Science College, Mouda

### Conclusion and Summary of Findings

1. The College has Rainwater harvesting system which is efficiently help for maintaining water level of borewell.
2. The College has waste disposal agreement with local vendor E- Waste is disposed off systematically and in timely a manner.
3. College is using Solar Street Light System which is in working condition.
4. The College has created great awareness among the students and staff about the energy conservation practices.
5. The College is well landscaped and the green cover is reasonably good and they are found to be increasing the green cover on a continuous basis which also help to keep campus cool.
6. Energy saving regarding signage boards are displayed everywhere in Campus for students and staffs to switch off all appliances after use.
7. The College canteen waste is composted and used as manure for the green cover of the campus.
8. The College has vermicomposting unit wherein entire bio-degradable waste is converted into compost manure and is used for organic farming of fruits and vegetables in the campus.
9. The water quality in the campus is tested and found portable.
10. The College has provided RO treated water for drinking to every students
11. In College every Classroom, Lab., Office, Canteen has a good space for ventilation and natural light source.
12. Noise level in Classrooms and labs is found less than 50 db which is within the safe limits as per Noise Pollution Control rules, 2000.
13. All results of Illumination studies (Classrooms and labs) found within limit as per Factory rules Section 35 Schedule b.

## Certificate

This is certify that we conduct an energy audit at D.D.Bhojar college of Arts & Science, Mouda, Dist. Nagpur in Year 2022-2023.

The College has already adopted energy efficient practices like:

- Usage of energy efficient LED lights.
- Usage of Solar Light.
- Usage of energy saving appliances.

We appreciates the supports of Management, all faculty members and students in the process of energy conservation and in making green campus.

विषय :- शैक्षणिक संस्थामधिले नविन व भावी मतदाराना मतदार नोंदणीसाठी शैक्षणिक संस्थांमध्ये सुविधा उपलब्ध करून देण्याबाबत.

संदर्भ :- कार्यालयीन पत्र क्र. स्वीप-२०२२/प्र.क.५०५/२२/३३, दिनांक १६ नोव्हेंबर, २०२२.

महोदय,  
 उपरोक्त विषयाकित व सदभाकित पत्रानुसार आपणास कळविण्यात येते की, मुख्य निवडणूक अधिकारी, महाराष्ट्र राज्य यांच्या कार्यालयाद्वारे भारत निवडणूक आयोगाकडून भारतीय नागरिकांचे निवडणूक मतदार यादीमध्ये नावनोंदणी करण्याबाबत वार्षिक संक्षिप्त पुनरिक्षण कार्यक्रम आणि सद्यत अद्ययावत कार्यवाही कार्यक्रम हे नियमितपणे व सातत्याने राबविण्यात येत असतात. सदर कार्यक्रमांमध्ये नविन व भावी मतदारांच्या नावनोंदणीवर विशेष भर देण्यात येतो. या आधी, येणाऱ्या वर्षामधील १ जानेवारी या अर्हता दिनांकामुळे पूर्ण भरणाऱ्या नागरिकांस मतदार यादीमध्ये नावनोंदणी करता येत होती. तथापि नावनोंदणी प्रक्रियेमध्ये एकत्रित झालेल्या बदलामुळे, आता येणाऱ्या वर्षामधील १ जानेवारी, दिनांक १ एप्रिल, दिनांक १ जुलै व दिनांक १ ऑक्टोबर रोजी या चार अर्हता दिनांकांसाठी कोणत्याही एका दिनांकात १८ वर्षे वय पूर्ण झालेल्या नागरिकांस नविन व भावी मतदार म्हणून नाव नोंदणी करता येणार आहे.

कृपया उपरोक्त मोहिमेची माहिती आपण आपल्या विभागाच्या/महाविद्यालयाच्या अधिकारिकांक विद्यार्थ्यांना करून देवावी, करिता माहितीस्तत्र, सादर.

आपला विश्वासू

Activity Report	
Academic Year	2021-22
Name of the Activity	Covid 19 vaccination Drive
Date of the Activity	25/10/2021
Number of Students	50
Number of Teachers	19
Organized By	NSS Unit of College
Brief Report	The National Service Scheme (NSS) and PHC Mouda collaborated to organize a "COVID-19 Vaccination Drive" on October 25, 2021, at D.D. Bhojar College of Arts and Science, Mouda. All NSS Unit volunteer students actively participated in this event. COVID-19 vaccines offer protection against the disease by eliciting an immune response to the SARS-CoV-2 virus. Building immunity through vaccination lowers the risk of contracting the illness and its associated complications. This immunity equips individuals to combat the virus if they come into contact with it. Additionally, vaccination may safeguard those around you, as reduced infection and disease risk lower the likelihood of transmitting the virus to others.
